ISTHMUS WAR.

The Panama Insurgents Issue a Warlike
Pronouncement Against
Americans.

Serious Trouble is Antici-
pated.

Temperature of His Room

AMERICANS ATTACKED.

The Panama Insurgents Pronounce
Against Us and Fire on Uncle
Sam's Pickets.

By Cable to THE SENTINEL.
Colon, April 23.—Trouble is immin-
ent in Panama. Aizpurn has issued a
pronouncement against Americans.
Their pickets have been fired on and
one hundred marines have been ordered
to reinforce Herward. Refugees are
leaving the city and Aizpurn has 800
men. He will probably remain quiet
until the arrival of the government
corps, which are embarking at Buena-
ventura.

UNEASY LIES HIS HEAD.

General Grant Experiences Another Un-
pleasant Night.

By Telegram to THE SENTINEL.
New York, April 23.—The tempera-
ture in General Grant's room last night
was so high that he did not sleep contin-
uously through the night. His rest was
broken, but the entire time of sleep was
about six hours, the same as Tuesday
night. The general would have arisen
and dressed at 7, but Dr. Douglas ad-
vised him to remain an hour more. The
general did so and between 7 and 8:30
gained nearly an hour's sleep. He then
arose refreshed and in no wise worse, if
not better.

OUT AGAIN.

New York, April 23.—General Grant
and his wife, Mrs. Fred Grant, and Mrs.
Sartoris went to drive at 12 o'clock. An
artist to-day had a sitting with the gen-
eral for the purpose of making a bust.

A COSTLY SURPRISE.

The Chinese Massacre a French Governor.
By Cable to THE SENTINEL.
Paris, April 23.—News has been re-
ceived from Cambodia to the effect that
insurgents surprised the French post,
captured several guns, and massacred
many Europeans.

THE CEREAL.

An Estimate of the Crop From Six States.
By Telegram to THE SENTINEL.
TOLKIN, April 23.—Messrs. C. A.
King & Co., of this city, to-day publish
the result of nine hundred crop reports
from grain dealers in Ohio, Indiana, Il-
linois, Michigan, Kansas and Missouri,
received during the past five days. One-
third of the reports present the pros-
pects favorable for winter wheat, with a
quarter poor, and nearly a half very
poor. Illinois and Kansas promise the
poorest, Michigan the best and better
than last year. One half the reports say
the prospects are better than a fortnight
ago, a quarter say they are as good and
a quarter worse. Illinois is the only
state which does not report an improve-
ment. The latest reports are the best,
especially from Kansas.

missed until Monday.

Grand Rapids, is in the city.

Joseph A. M. Storm is entertaining
his mother, who came from Philadelphia

Fred Landenberger.

There will be an ice cream social at
the Berry street M. E. church this even-
ing. It will be an enjoyable time. A
general invitation is given.

The temperance people will soon offer
to our citizens a rare treat: A lecture
entitled, "A Look Abroad," by Herriek
Johnson, D. D., of Chicago, at the
Second Presbyterian church. Watch
for the day and date.

The ladies of Zion S. Bass Relief corps
will give a basket social to-night. The
ladies will bring their baskets contain-
ing "lunch for two," and will eat with
the gentlemen buying their baskets.
Lots of fun is anticipated.

The death of John Kearns occurred at
the residence of his mother, No. 2 Bran-
driff street, this morning at 6:30 a. m.
He is a brother of Miss May Kearns,
deceased. His remains will be taken to
Huntington Saturday for interment.

The indications for the lower lake re-
gion, as reported by the weather bureau
at Washington to THE SENTINEL, are as
follows: Fair weather, followed by local
rains and partly cloudy and colder
weather, southerly winds becoming vari-
able, generally lower barometer.

Dr. T. J. Dills yesterday removed a
cataract from the eye of a patient at the
city hospital, and restored the lady's
sight. In an adjoining ward was suffer-
ing from an inflammation of the eye, and
the sight was hideous. The woman
just placed herself under the doctor's
treatment.

Fred Grossman, of Lagro township,
Walworth county, is in the city to-day,
searching for his wayward niece, whom
he believes to be here. The girl ran
away from home a week ago. Her name
is Caroline Wasserlebe. John Wasser-
lebe, the Harrison street tailor, is a rela-
tive of the missing girl.

Word comes from the white house—
unofficially—that the president never
promised to make judicial appointments
in the territories from residents in the
territories. The friends of Al Friend, of
this city, will again press his claims for
a territorial appointment, and THE SEN-
TINEL would like to see the young gen-
tleman recognized.

The grand jury yesterday returned
three indictments. One against Henry
Hilber, for petit larceny and charging him
with a former conviction, which
makes him responsible for grand lar-
ceny. There is also an indictment
against two parties not yet arrested for
house breaking with intent to steal, and
one against a party not yet arrested for
selling liquor on Sunday.

The organization of a Railway Rate
Cutters association is suggested by the
Cleveland Herald. The trouble would be
to find a room commodious
enough for them to meet in. Any Erie
or West Shore man would make a good
president. There are Nickel Plate
agents as well, who would be fully com-
petent for the position. Then it might
be well to include some of the general
freight agents; there is one at St. Louis
who would make an able president, es-
pecially were he to divulge to the boys
his methods of getting business.

A DEADLY FLASH.

The British Admiralty Headquarters
Racked Asunder by a Dyna-
mite Shell.

Assistant Secretary Swainson and Sev-
eral Other People Injured by
the Explosion.

No Arrests are Yet Recorded, but the
Officers are Dogging Every
Track.

WAR AT HOME.

The British Admiralty Office Shattered by
Dynamite.

By Cable to THE SENTINEL.
LONDON, April 23.—At eleven o'clock
this morning an explosion occurred in the
basement of the admiralty building.
The building was badly damaged, and
many persons were injured, among
them were some of the head officials of
the department. The explosion was
undoubtedly caused by gun cotton or dyna-
mite.

LONDON, April 23.—The firemen and
police were promptly summoned and all
the gates closed. No person was al-
lowed to enter or depart from the prem-
ises until a thorough examination could
be made.

The explosion set the room on fire,
but the officials and firemen soon ex-
tinguished the flames. An inspector,
after a cursory examination, expressed
doubt as to whether the explosion was
caused by gas, gun-powder or dynamite.
The explosion occurred in the secretary's
department. Edwin N. Swainson, as-
sistant secretary and principal clerk, re-
ceived a severe scalp wound, and it is
said other officials were also injured,
but none so seriously as Mr. Swainson.
It is now believed the explosion was not
accidental, but that it was caused by
dynamite. Swainson's room was made a
complete wreck, and the adjacent cor-
ridors were very much damaged, while
all the windows were blown out.

No arrests have yet been made and no
clue has been obtained. Sir William
Verdon Harcourt and Colonel Majerlie,
chief inspector of explosives, made a
careful and personal examination of the
wreck. No official statement as to the
cause of the explosion has as yet been
made. The walls and other principal
parts of the building are uninjured. Mr.
Swainson also suffers from a severe con-
cussion of the brain. It is expected he
will recover.

The plaster of the room hangs in rib-
bons from both walls and the ceiling and
the fittings are smashed into atoms. The
marvel now is that more serious damage
was not done to the occupants. Mr.
Swainson gives it as his opinion that the
explosive or whatever it may have
been was thrown into the room through
the window. The rumor is now in cir-
culation that two men, bearing a pack-
age, were seen just previous to the ex-
plosion, mounting the wall near the sec-
retary's department.

The explosion occurred close to, but
not in Mr. Swainson's room, as stated in
earlier reports. The staircase leading to
the board room was demolished. Two
men were noticed by several persons re-
contemplating yesterday and this morn-
ing. The same men were seen to enter
the garden in front of Swainson's office.
One of the men carried a tin can, which
was placed in the recess of the passage-
way leading to the offices. The move-
ments of the men attracted but little at-
tention, owing to the fact that several
workmen had recently been measuring dis-
tances on the grounds. There is a general
revulsion of feeling towards the belief
that war is now inevitable.

THE CULPRITS.

LONDON, April 23.—The admiralty
officials now state that they observed
the two men who are suspected of caus-
ing the explosion, but they were thought
by the officials to be assistants of the

surveyors. From the description given
of the two men who were seen to-day to
enter the grounds, they recognize them
as the same.

AN INTERNAL AMERICAN MACHINE FOUND.
The face of a small American clock,
blackened by the explosion, with pieces
of the clockwork attached, were found
among the debris. The officials suppose
these are the parts of the internal
machine which caused the explosion.

A Terrible Flood. Many Lives Lost. Hunt-
ing for the Bodies.

By Telegram to THE SENTINEL.
WHITTA, Kas., April 23.—A special
to the Daily Eagle, dated yesterday,
at Medicine Lodge, recounts the fearful
results of a water-spout or cloud
burst to the residents of Medicine
Lodge, which seems to have been the
same that filled the river to over-flow-
ing. The special says that the water
rolled down over the low lands east of
Medicine Lodge from ten to twelve
feet perpendicular, carrying death in
its wake. Several whole families are
known to be drowned. Yesterday morn-
ing parties who had gone out to give re-
lief found men, women and children
clinging to trees with nothing but their
night clothes to protect them, and some
without any clothing whatever, but
still alive. Three attempts were made
to rescue the parties beyond the river,
but each boat in turn was swamped
and the occupants only saved them-
selves by swimming to the trees. Fire
bodies had been recovered up to the
hour of writing the dispatch, which
was sent over to the first railroad point
by mail. There were eight movers
wagons camping in the bottoms and
one old man has recognized the bodies
of his family, his wife and two children.
Jas. Gibbs and his daughter and niece
were washed away with their home.
A Mrs. Harris and her little girl, of
eleven years old, were found drowned.
E. W. Padlock and family, consisting
of a wife and four children, are
thought to be all drowned. Frank
Shippert put his wife and child on
the roof and his house went down. He
was knocked off by a projecting limb
and swam ashore several miles below,
but of the fate of his wife and child
nothing was known.

AMMONIA IS MAKING POWDER.

Scientific American.
Among the recent discoveries in sci-
ence and chemistry, none is more im-
portant than the use to which common
ammonia can be properly put as a leav-
ening agent, and which indicate that
this familiar salt is hereafter to perform
an active part in the preparation of our
daily bread.

The carbonate of ammonia is an ex-
ceedingly volatile substance. Place a
small portion of it upon a knife and hold
over a flame, and it will almost immedi-
ately be entirely developed into gas and
pass off into the air. The gas thus
formed is a simple compound of nitro-
gen and hydrogen. No residue is left
from the ammonia. This gives it its
superiority as a leavening power
over soda and cream of tartar
used alone, and has induced its
use as a supplement to these articles. A
small quantity of ammonia in the dough
is effective in producing bread that will
be lighter, sweeter, and more whole-
some than that risen by any other leav-
ening agent. When it is acted upon by
the heat of baking the leavening gas that
raises the dough is liberated. In this
act it uses itself up, as it were; the am-
monia is entirely diffused, leaving no
trace or residuum whatever. The light,
fluffy, flaky appearance, so desirable in
biscuits, etc., and so sought after by pro-
fessional cooks, is said to be imparted to
them only by the use of this agent.

The bakers and baking-powder man-
ufacturers producing the finest goods have
been quick to avail themselves of this
useful discovery, and the rancid and
best bread and cake are now largely
risen by the aid of ammonia, combined of
course with other leavening material.

Ammonia is one of the best known pro-
ducts of the laboratory. If, as seems to
be justly claimed for it, the application
of its properties to the purposes of cook-
ing results in giving us lighter and more
wholesome bread, biscuit, and cake, it
will prove a boon to domestic humanity,
and will speedily force itself into gen-
eral use in the new field to which science
has assigned it.

Dr. M. E. Porter received this morn-
ing by telegraph the sad news of the
death of his sister, Mrs. Marion E. Beall,
at Saltillo, Mexico, yesterday. Mrs.
Beall was well known in this city as Miss
Jennie Porter, whose home was in De-
catur, Ind., but whose frequent visits
here created for her a large circle of
friends. She leaves to the care of her
husband two small children, one but a
few weeks old. She was married to Rev.
M. E. Beall, a Presbyterian minister,
and accompanied him about a year ago
on his mission as a missionary to Sal-
tillo.

VIRTUAL WAR.

His Country.

The Continental Press Believe a War

THE CZAR'S ULTIMATUM.

Russia to Demand the Expulsion of Eng-
land From Afghanistan.

By Cable to THE SENTINEL.
VIENNA, April 23.—Information re-
ceived here from St. Petersburg political
circles creates a great sensation. It is to
the effect that the only condition on
which peace can be assured is that Eng-
land shall acknowledge complete neu-
trality in Afghanistan and the extinction
of English influence on America's country.
This demand on the part of Russia has
been communicated as an ultimatum to
London. The highest military circles
in Russia are bringing great pressure to
bear on the government to declare war.
Russia, it is further said, is only await-
ing a moment when the Volga shall be
free of ice, as this river is essential for
the transportation of her troops.

THE GOVERNMENT ATTACKED.

LONDON, April 23.—Sir Stafford North-
cote made a speech last evening, in
which he attacked the government pro-
gram.

The government has chartered the
steamer "Richmond Hill," now plying
between London and New York, and
will equip her as a cruiser.

GLADSTONE'S REPLY.

LONDON, April 23.—In the house of
commons to-day Gladstone, in replying
to an inquiry by Sir Stafford Northcote,
said there was no intention of laying
further papers on the table before asking
for a vote upon the war credits. "The
government," Gladstone continued, "was
engaged in a correspondence of extreme
gravity with Russia. A complete state-
ment could not be given, and a partial
statement might cause misapprehen-
sion."

WAR INEVITABLE.

BERLIN, April 23.—The continental
press appear to think that war between
Russia and England is inevitable.

35,000 MEN.

LONDON, April 23.—The government
estimate requires that 35,000 men be ad-
ded to the army.

STICKS TO ROMANOFF'S STORY.

ST. PETERSBURG, April 23.—The *Jour-
nal*, in a review of Sir Peter Lamden's
report, says that the report is based on
statements from Afghan sources, and
Gladstone need not be surprised if Rus-
sia prefers to rely upon the testimony of
her generals.

A HUMOROUS.

Governor Gray did a very neat piece of party service the other day. Since the failure of the state board of health bill by reason of omission of the exacting clause, he has been looking up the law in relation to appointment of members of that body, and has found that the two hold over members, Drs. Partridge and Lomas, both of whom are republicans, never complied with the requirements of the statutes as to the qualifications of state officers. These gentlemen have acted during the entire term of office without even taking the oath of office or filing certificate of their appointment with the secretary of state. The governor accordingly appointed in the place of Dr. Partridge, of South Bend, whose place on the board he regarded as vacant, Dr. Samuel S. Boats, of Greenfield, the gentleman who had been already named for the position before the defeat of the act was discovered. This makes the board stand three democrats and one republican. The governor's action has created considerable commotion in political and medical circles, especially as the republican papers were making all sorts of fun of the late legislation for omitting the inacting clause. Secretary Elder will not be removed until his term expires and then Dr. W. H. Myers, of this city, will seek the position.
Peculiar People.
A queer old gentleman in Washington has a hobby for keeping up a house for elderly and debilitated cats. He has a house full of them. He is the victim of dyspepsia, which has to a certain extent muddled his mind, and made him odd. Don't ever let your dyspepsia go so far as that. You can check it and drive it completely out by using Brown's Iron Bitters. Mr. R. T. Heron, St. George's, B. C., says: "I used Brown's Iron Bitters for dyspepsia, and have found great relief."

Fort Wayne Paint and Color Works,

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters
And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinders of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 30 per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1886, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the cans says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.
I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

The legislature passed a bill for enrolling all soldiers of Indiana. The bill provides that assessors in making up lists for taxation, shall also take the name, rank, company, regiment and present postoffice addresses of every union soldier or seaman, or his widow, or children, if such survive him. Such lists are to be returned to the county clerk, who shall keep a record of them, and furnish a duplicate to the adjutant general of the state. This entails a heavy additional burden on the county clerk, without making any provision to pay him, and while S. Major promptly protests against the law and will assert his opposition to the proper authorities.

THE SCRIP SCORE.

New York Brokers. Reassess the Old Wabash and Erie Canal Bonds for Payment by the State of Indiana.

A rumor is again given currency that the attorney general of New York holds the state of Indiana responsible for an issue of scrip issued to construct the Wabash and Erie canal through Fort Wayne. The paper is now held by newsboys and "street brokers" in New York. Scrip was issued in 1832 to the amount of \$1,727,000 for the canal building, and the speculators now not only want the original amount but interest to date. The state's relations to these bondholders, however, were forever settled by a constitutional amendment, March 7, 1873, providing that no law or resolution should ever be passed by the general assembly that should recognize the liability of the state to pay or redeem any certificate or stocks issued in pursuance of an act entitled "An act to provide for the funded debt of the state of Indiana, and for the completion of the Wabash and Erie canal to Evansville, passed January 19, 1846," and amendments, which provided that such certificates should be paid as already set forth, and not by the state.

It is said that the representatives of the bondholders came to Indiana in 1883 and corrupted the legislature of that year into an agreement to pay these certificates from the state treasury. The bondholders not content with the principal wanted interest, and to that the legislature demurred and then refused to pay anything. The scrip is now held largely by curio-brokers and newsboys in New York.

A RISE IN THE BULLY.

Joe Brown's First Game Yesterday a Fight at Indianapolis.

Joe Brown, the Fort Wayne favorite, played his first game with the Milwaukee club at Indianapolis yesterday. The Hoosiers downed the Wisconsin nine by a score of 11 to 3. Brown played center field and caught one man out, made an error and got to first base twice. Arundel, who caught for the visitors, gave an exhibition of temper and brutality in the sixth inning that would have disgraced a prize fighter, for which he was justly fined \$25 by Umpire Hoover. The score had been tied by Thompson's run, and Moriarty and Crane scored on Joe Brown's fielding error. As Crane crossed the plate the ball was fielded into Arundel's hands at the home-plate, and the latter, turning with a savage oath, planted a blow with his fist from behind on Crane's back that nearly knocked him down. Before Crane could turn he attempted to strike him again, but Miller, who was at the bat, brandished the club over the bully's head in a way that meant business, and he dropped his arm. By this time Umpire Hoover had interposed, and fined the obstreperous Arundel \$25. Joe Brown is engaged to play change pitcher.

There are a half dozen liquor joints in this city that ought to be wiped out. In the places young boys mingle with depraved women and make night hideous with their carousals. The holes are east of Court street and a few of them were recently raided by order of Deputy Prosecutor Bittinger. If Mr. Dawson and his assistant can close up these dives they will accomplish more for the reformation of the city than anything in its history.

Lost! Her sallowness, and looked as free as a new blown daisy. Well the story is soon told. My wife, to-day, has gained her old-time beauty with compound interest, and is now as handsome a matron (if I do say it myself) as can be found in this county, which is noted for pretty women. And I have only Hop Bitters to thank for it.

The dear creature just looked over my shoulder, and says "I can flatter equal to the days of our courtship," and that reminds me there might be more pretty wives if my brother farmers would do as I have done.
